### **Item 7.01. Regulation FD Disclosure.**

On December 2, 2022, AST SpaceMobile, Inc. (the “Company”) issued a press release related to the closing of its previously announced offering of 13,636,364 shares of Class A common stock of the Company, par value \$0.0001 per share (the “Class A Common Stock”). A copy of the press release is attached hereto as Exhibit 99.1 and incorporated by reference herein.

The information contained in this Item 7.01 and Exhibit 99.1 are furnished and shall not be deemed to be filed for the purposes of Section 18 of the Exchange Act, or otherwise subject to the liabilities of such section, nor will such information be deemed incorporated by reference in any filing under the Securities Act, or the Exchange Act, except as may be expressly set forth by specific reference in such filing.

### **Item 8.01. Other Events.**

On December 2, 2022, the Company announced that it had closed its previously announced offering of 13,636,364 shares of Class A Common Stock, raising gross proceeds before underwriting commissions and other offering expenses of \$75.0 million. B. Riley Securities, Inc. (“B. Riley”) was the sole book-running manager of the offering. The Company has also granted B. Riley a 30-day option to purchase up to an additional 2,045,454 shares to cover over-allotments, if any, which would raise an additional \$11.25 million in gross proceeds before underwriting commissions and other offering expenses for the Company if exercised in full.

The opinion of Sullivan & Cromwell LLP, counsel to the Company, is filed as Exhibit 5.1 to this Report and is incorporated by reference to the Prospectus Supplement, dated November 29, 2022 and filed with the Securities and Exchange Commission on December 1, 2022.

### **Forward-Looking Statements**

This communication contains “forward-looking statements” that are not historical facts, and involve risks and uncertainties that could cause actual results of AST SpaceMobile to differ materially from those expected and projected. These forward-looking statements can be identified by the use of forward-looking terminology, including the words “believes,” “estimates,” “anticipates,” “expects,” “intends,” “plans,” “may,” “will,” “would,” “potential,” “projects,” “predicts,” “continue,” or “should,” or, in each case, their negative or other variations or comparable terminology.

These forward-looking statements involve significant risks and uncertainties that could cause the actual results to differ materially from the expected results. Most of these factors are outside AST SpaceMobile’s control and are difficult to predict. Factors that may cause such differences include, but are not limited to: (i) expectations regarding AST SpaceMobile’s strategies and future financial performance, including AST’s future business plans or objectives, expected functionality of the SpaceMobile Service, anticipated timing and level of deployment of satellites, anticipated demand and acceptance of mobile satellite services, prospective performance and commercial opportunities and competitors, the timing of obtaining regulatory approvals, ability to finance its research and development activities, commercial partnership acquisition and retention, products and services, pricing, marketing plans, operating expenses, market trends, revenues, liquidity, cash flows and uses of cash, capital expenditures, and AST’s ability to invest in growth initiatives; (ii) the negotiation of definitive agreements with mobile network operators relating to the SpaceMobile service that would supersede preliminary agreements and memoranda of understanding; (iii) the ability of AST SpaceMobile to grow and manage growth profitably and retain its key employees and AST SpaceMobile’s responses to actions of its competitors and its ability to effectively compete; (iv) changes in applicable laws or regulations; (v) the possibility that AST SpaceMobile may be adversely affected by other economic, business, and/or competitive factors; (vi) the outcome of any legal proceedings that may be instituted against AST SpaceMobile; and (vii) other risks and uncertainties indicated in the Company’s filings with the SEC, including those in the Risk Factors section of AST SpaceMobile’s Form 10-K filed with the SEC on March 31, 2022.

---

The planned testing of the BlueWalker3 (“BW3”) test satellite may not be completed as currently planned due to a variety of factors, which could include loss of satellite connectivity, destruction of the satellite, or other communication failures, and even if completed as planned, the BW3 testing may indicate adjustments that are needed or modifications that must be made, any of which could result in additional costs, which could be material, and delays in commercializing our service. If there are delays or issues with our testing, it may become more costly to raise capital, if we are able to do so at all.

AST SpaceMobile cautions that the foregoing list of factors is not exclusive. AST SpaceMobile cautions readers not to place undue reliance upon any forward-looking statements, which speak only as of the date made. For information identifying important factors that could cause actual results to differ materially from those anticipated in the forward-looking statements, please refer to the Risk Factors incorporated by reference into AST SpaceMobile’s Form 10-K filed with the SEC on March 31, 2022. AST SpaceMobile’s securities filings can be accessed on the EDGAR section of the SEC’s website at [www.sec.gov](http://www.sec.gov). Except as expressly required by applicable securities law, AST SpaceMobile disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.
